6   [First Amended] 38. I claim a game for at least one player comprising the steps of:

7   a) preparing at least one first deck of cards representing the possible outcomes from a dice

8 means for determining a random number between a predetermined minimum and a predetermined

9 maximum;

10   b) preparing at least one second deck of cards representing the possible outcomes from a dice

11 means for determining a random number from a predetermined minimum and a predetermined

12 maximum;

13   c) providing at least one first wager location and at least one second wager location for

14 accepting a wager on at least one statistical event associated with the random generation of dice rolls

15 according to a set of rules based on statistical odds of the occurrence of specific dice rolls;

16   d) accepting at least one wager on the at least one first wager location;

17   e) selecting at least one first card from the at least on first deck at random using an

18 electromechanical playing card handling apparatus for randomly shuffling and dealing the at least

19 one first card;

20   f) displaying the at least one first card;

21   g) satisfying wagers if the at least one first card matches the at least one statistical event;

22   h) accepting at least one wager at least one second wager location;

23   i) selecting at least one second card at random using an electromechanical playing card

1 handling apparatus for randomly shuffling and dealing the at least one second card from the at least

2 one second deck;

3   j) displaying the at least one second card;

4   k) satisfying the at least one second wager if the at least one second card matches the at least

5 one statistical event.

6 [First Amended] 39. The game of claim 38 wherein the at least one first deck further comprises at

7 least one third deck of cards representing the outcome from a dice means for determining a random

8 number between a predetermined minimum and a predetermined maximum and wherein the step of

9 selecting at least one first card at random further comprises selecting at least one first card at random

10 using an electromechanical playing card handling apparatus for randomly shuffling and dealing the

11 at least one first card and selecting at least one second first card from the at least one third deck of

12 cards using an electromechanical playing card handling apparatus for randomly shuffling and

13 dealing; and wherein the step of displaying further comprises the step of displaying the at least one

14 first card second card and wherein the step of satisfying wagers comprises the step of adding the at

15 least one first card and at least one second first card together to determine if the at least one statistical

16 event has occurred.

17 40. The game of claim 39 wherein at least one statistical event is determined from the statistical

18 events utilized in playing a game from the group consisting of 1) a craps game, 2) a Four The

19 Money game, 3) a high roller of the month game, 4) a high low craps, and 5) a roulette game.

20 41. The game of claim 40 wherein the first deck of cards and third deck of cards represent the

21 possible outcomes with a first and second dice having 6 sides.

22 42. The game of claim 38 further comprising at least one special card which represents an object

23 other than a number between the predetermined minimum and predetermined maximum and

1   wherein the display of the special card provides a bonus to the wager.

2   43. The game of claim 42 wherein the bonus is from the group consisting of (1) allowing the player

3   to pick any number from at least one number between the predetermined minimum and

4   predetermined maximum for the value of the special card, (2) providing a multiple payout on wagers,

5   (3) providing a special payout not related to a wager on the occurrence of the special card, (4)

6   providing a special payout related to a wager on the occurrence of the special card, (5) triggering an

7   event to select an additional play, and (6) triggering an event to randomly select an additional

8   amount.

9   44. The game of claim 42 wherein the special card also bears a number between the predetermined

10   minimum and pre-determined maximum.

11   [First Amended] 45. The game of claim 38 wherein the step of selecting further comprises the step

12   of selecting at least one first card and at least one second card and wherein the at least one first card

13   and at least one second card each represent a dice roll and wherein the step of displaying further

14   comprises a) preparing a table with a plurality of card locations comprising at least one first card

15   location and at least one second card location for receiving the at least one first card and the at least

16   one second card;

17   b) dealing the at least one first card and the at least one second card to the at least one

18   first card location and at least one second card location respectively;

19   c) allowing the at least one player to select a location from between the at least one

20   first card location and at least one second card location;

21   d) displaying the card in location selected by the at least one player.

22   [First Amended] 46. The method of claim 39 wherein the step of selecting further comprises:

23   1) preparing a table with a plurality of card locations for receiving at least three cards from

4

1   each deck comprising a first card location, a second card location and at least one third card location;

2   m) dealing at least one first first card at least one second first card and at least one third first

3   card to the plurality of card locations;

4   n) allowing the at least one player to select two of the plurality of card locations and not

5   select at least one of the plurality of card locations to select two play cards; and

6   o) adding the two play cards to determine the outcome.

7   [First Amended] 47. The method of claim 46 further comprising the step of removing and

8   reshuffling the at least one first deck of cards and dealing at least one first second card and at least

9   one second second card and at least one third second card from the at least one second deck of cards

10 to the plurality of card locations;

11   b) allowing the at least one player to select at least two of the plurality of card locations and

12 not select at least one of the plurality of card locations so as to select at least two play cards;

13   c) adding the two play cards to determine a dice roll outcome.

14 48. The method of claim 38 further comprising repeating steps c through k until a predetermined

15 target number is generated as the statistical event.

16 49. The method of claim 40 wherein the at least one first deck comprises a first first deck and a

17 second first deck and the at least one second deck comprises a first second deck and a second second

18 deck and wherein the step of selecting comprises selecting a first card from the first first deck and

19 a second card from the second first deck and selecting a first card from the first second deck and a

20 second card from the second second deck and adding the first and second cards from the first and

21 second decks to get an outcome from each deck.

22 50. The method of claim 38 further comprising the steps of (1) marking the value of the at least one

23 first card with an electronically readable value, (2) electronically examining the cards to locate the
